Weak Cables Alsoo Rob the Market of Support; Corn and Oats Ease Off.

Chicago, Ill., March 4-Weak cables and uspicious weather combined today in de-riving wheat of support. It was not until the market had undergone a material decline to 4 off and made a further slight decide.

The close was sleady at the same as last night to 50 0 1 off.

In oats the governing influence was the depression of other cereals. Trade reached a fair volume.

Buying on the part of shorts and packers gave firmness to provisions. Although sales at the outset varied from 1 4 to 3 cents advance, the market later hardened all around.
